CALYPSO is a project co-funded by the European Union (OP Italy-Malta 2007-2013) of the 2-year and coordinated by prof. Aldo Drago of the Physical Oceanography Unit at the University of Malta. This project brings together three partners Maltese - Transport Malta Civil protection Department and Armed Forces of Malta and Sicily four partners: ARPA Sicily, Capo Granitola IAMC-CNR, University of Palermo (UNIPA) and the University of Catania (CUTGANA).

The end result of the project is the establishment of a system of permanent monitoring remote radio frequency fully operational, capable of acquiring data on surface currents of the Malta Channel to the time scale.

Components of the Partner CUTGANA-University of Catania:

- prof. ing. Rosario Sinatra (scientific responsible),
- ing. Carlo Grasso
- dott. Alfio Grasso,
- dott.ssa Gabriella Guarino
